Why Choose US

The Market Leader

FOR INTERLININGS

CTC offers the most comprehensive range of interlining solutions: such as lightweight and transparent interlinings for womenswear, elastic and resilient interlinings for menswear, stable and washable interlinings for durable shirt applications, water-soluble interlinings for delicate embroidery and prefabricated products for tapes and chest pieces.

A perfect fit and comfortable wear are crucial selling points for apparel today. But high-quality clothing has to serve many more purposes.

By means of nonwoven, woven and weft materials, interlinings from CTC always provide the best possible support for any garment.

Sustainability and the **responsible use** of natural resources are essential aspects of all our activities.

We have increased the share of recycled fibers in our manufacturing processes and offer compostable interlinings for specific applications.

The Finer Details

HIGH-TECH MEETS HIGH STYLE

From business suits to leisurewear – CTC offers the perfect interlining for any quality garment

Woven and weft

interlinings Interlinings for classical suits, casual wear and outer wear have to ensure the perfect fit and meet the highest demands on comfort and durability.

CTC inter-linings offer a wide range of solutions to ensure the perfect fit for your application. They are designed to fulfill the highest standards.

FASHION WEAR – THE FIT IS ALWAYS

PERFECT

For the fashion-conscious consumers of today, clothing has to offer the perfect balance between style and function. The demands are high in regards to comfort and individual design. From transparent blouses to casual jackets: manufacturers prefer interlinings made of lightweight, elastic nonwoven, woven and weft materials. They provide invisible stabilization and are indispensable for modern production processes.

Waistbands

Edge Tape
Reinforcements

Post-processing of garments – innovative and unique

Individual styles and designs are realized by means of intricate post-processing methods such as garment wash, stone wash, enzyme wash, and garment dyeing. These put a significantly higher strain on the structure, surface and color of the outer fabric and the interlining as well.

CTC interlinings for modern and functional fashion wear are extremely adaptable and resistant to pilling. An innovative adhesive system creates the perfect connection between the interlining and the outer fabric.

Trouser waistbands and loops – robust and well-conceived

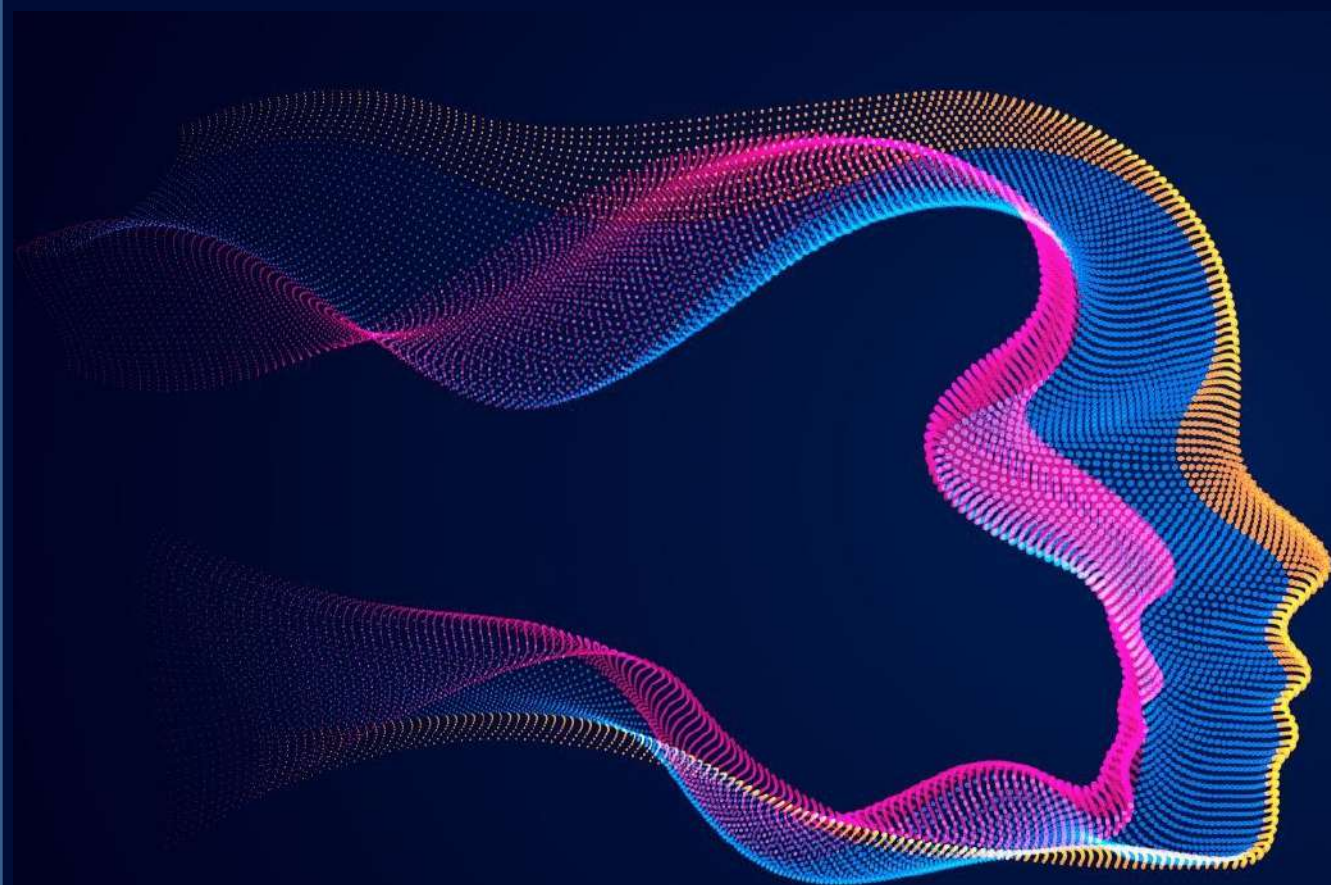

Webs used in loops not only add stability, they also prevent the open ends of loops from fraying. CTC Tapes help to stabilise shapes and to support smooth and efficient operator sewing

Our product range – comprehensive and versatile

CTC is well known for developing innovative products for specific applications, such as fusible, non fusible and water soluble interlinings or the latest bi-elastic solutions

Many of our products are especially designed to fulfill the high requirements of work wear and leasing wear applications.

Engagement

The True Benefits

USING DIGITAL TECHNOLOGY

Sustainability is essential to our success

It's a way of doing business that is considered in every choice that we make. We are a responsible corporate citizen in all places in the world where we do business.

Driven to develop tech solutions for the future.

Compliance - Fair business is good business

Active in all aspects of compliance, health, safety & environmental standards, anti-corruption and fair business dealings as well as relevant legislation e.g. REACH. Our worldwide operations are accredited according to the **Oeko-Tex** international standards

Global - We are there for you, wherever needed

Even though we are a leading global player in interlining & pocketing, we still think like a local company. We always look for the ideal product or solution that meets local conditions and market needs as effectively as possible through digitization..

Price-optimized solutions

As well as offering a complete portfolio of interlinings, **CTC** can work with you to meet specific pricing objectives. Based on a **GOOD, BETTER, BEST** performance analysis, our technical experts will advise you on the most cost-effective solution for your intended application.

Identifying cost-saving opportunities

In our long experience, the biggest cost-saving opportunities lie not in individual product prices but in total costs seen in the context of the entire value chain. We openly discuss the best possible way of delivering products and Tech services to you and your production facilities

Follow-up at factory level

We work with you to manage the entire supply chain process, from specifying and standardizing the quality of products and **on - site training for operators services and webinars** to ensuring just on time delivery, anywhere in the world

Having Peace of Mind

Using Verified Textile & Apparel Chemical Testing services, you as a brand and retailer can be confident that our processes and products are free of high-risk chemicals and regulated chemicals

We conduct chemical testing for compliance to the :

- ✓ U.S. Consumer Product Safety Improvement Act (CPSIA)
- ✓ EU's Registration, Evaluation, and Authorization of Chemical Substances - EC1907/2006 Regulation (REACH),
- ✓ company-directed restricted substances list (RSL) programs.

Our partners offer Chemical Certification Testing in North America, Europe and Asia Pacific

We are affiliated to the Better Cotton Initiative (BCI)

The BCI is a global not-for-profit organisation and the largest cotton sustainability programme in the world. BCI exists to make global cotton production better for the people who produce it, better for the environment it grows in and better for the sector's future.

We consistently operate in a sustainable way and depend on a network of suitable partners and reliable sources of materials.

Being OEKO-TEX® Certified supports you in the selection of reliable and compliant products from our ranges
